

# Roof insulation planner

## Preparations

Make a list of your  
questions and concerns

A large, empty, light blue rounded rectangle with a dark blue border, intended for writing a list of questions and concerns.

Take some photos  
of the attic

A large, empty, light blue rounded rectangle with a dark blue border, intended for pasting photos of the attic.

Gather documents related to the attic (e.g.  
floor plan, previous renovations)

A large, empty, light blue rounded rectangle with a dark blue border, intended for gathering and listing documents related to the attic.

Schedule an appointment

Call selected professionals

Schedule an on-site assessment

Ask how much time is available for the  
consultation

Appointment:

# Day of the consultation

## Check list

01

Ensure free access  
to the attic

02

Prepare a  
notebook to  
record important  
information

03

Have a measuring  
tape handy in case  
you need it

Buldermaster-Plus provides all  
the tools for the survey.

## Topics to be discussed

| Questions                                    | Answers |
|--|---------|
| Current insulation status                    |         |
| Recommended insulation methods and materials |         |
| Expected costs and return on investment      |         |
| Duration and schedule of work                |         |
| Any challenges or special requirements       |         |
| Warranty and after-sales services            |         |
| Other  | Notes   |

## Follow-up

01

Ensure free access  
to the attic

02

Compare quotes  
from different  
professionals

03

Request additional  
information or  
clarification if  
necessary

## Decision making

01

Evaluate the offers  
and the attitude of  
the professionals

02

Choose the most  
suitable  
professional or  
company

03

Agree on the start  
date of the work  
and the details of  
the contract
